Welcome To Our Website

Market towns are important places in rural England, not only for people living in the town but also for visitors and people in nearby rural areas.

The East Midlands is unique with over 75% of its population living in rural areas including small towns.

This web site aims to provide you with information about each town and each agency working in the East Midlands trying to preserve and enhance our market towns as service centres.

To gain access to this web site, please click on the "**REGISTER HERE**" button just to the left.

This will take you to a simple form, which upon completion, will send you access codes to the rest of the web site.

We ask for these details to help create a transparency in to who is working for market towns in this region. This way we can easily create a vibrant network of market towns between the people who work in, around and for them. Your details will not be given to any 3rd party organisation.
